

Governance, Risk, and Compliance (GRC) Offering

In today's dynamic business landscape, organizations face mounting challenges in governance, risk, and compliance (GRC). Traditional approaches to GRC administration often fall short, necessitating the adoption of innovative technology. Windward's offering is built on ServiceNow's Integrated Risk Management (IRM) product, addressing these challenges through a unified platform that comprehensively reflects program status on a single pane of truth.

Challenges

Organizations struggle with disparate data sources, lack of centralized policy management, and complex regulations, each contributing to the risk of policy infractions and system downtime due to non-compliance.

Benefits of our GRC Solution

Our offering provides organizations with:

- A centralized framework for managing policies, procedures, and regulations, enhancing governance capabilities
- Real-time dashboards and reports providing leadership with high visibility into GRC data
- Automation capabilities to streamline compliance and risk workflows
- Integrated AI for risk analysis, enabling proactive risk management strategies, and
- A unified platform that fosters collaboration and transparency across departments.

Windward's GRC offering consolidates risk and compliance platforms and workflows to help companies safeguard their reputation, ensure business continuity, and drive sustainable growth in today's complex business environment.
