Get Fast Answers + Quick Wins
With a ServiceNow® Rapid Health Check

Accelerate your value.

IT teams need help to accelerate the time to value of their investment in ServiceNow, to meet the growing demands of their organization. Windward has launched our new Rapid Health Check to help IT leaders find a clear path to better align costs to value.

What is ServiceNow Rapid Health Check?

Windward's Rapid Health Check is an in-depth review of your ServiceNow installation with the objective of realizing the strategic value of your ITSM, data analytics and AIOps platforms. The final deliverable is a detailed assessment that provides actionable insights for getting the most out of your ServiceNow investment.

Benefits of Rapid Health Check:

Windward is the only company that is platform-agnostic and has deep experience across the full lifecycle of ServiceNow, Splunk and Moogsoft platforms. And while we are platform-agnostic, we are partner-friendly with long-standing relationships with all of these providers.

We have real-time access to their executive teams, support teams and sales teams collaborate on client projects so we can eliminate communication delays. The combination of our deep technical chops, direct partner relationships and over 20 years helping to scale IT Operations at the largest companies in the world gives us a unique perspective and ability to deliver immediate value for your organization.

Get a fast roadmap to streamline processes and workflows to maximize the value of your investment.

What will you receive?

You'll receive an assessment leveraging Windward's best practices and proven processes to:

- ✔ Align costs to results
- ✔ Measure your results and ability to manage to SLAs
- ✔ Free up your staff to focus on strategic projects
- ✔ Focus on innovation and improving value realization
- ✔ Tap into broader expertise for complex solutions
- ✔ Enhance security and compliance
- ✔ Access and deploy new technologies faster

How does the Rapid Health Check work?

Step 1:

Book a discovery meeting with your Windward Consultant to discuss your current infrastructure.

Step 2:

Your Windward Consultant assembles a team of platform subject matter experts based on the specifics of your implementation.

Step 3:

Your team of hand-selected subject matter experts completes a rapid assessment of your installation to find opportunities to accelerate.

Step 4:

You get a deliverable that outlines a solution to accelerate your time to value because we know every move counts, right now.

Leverage the strengths of our managed platform services team and the deep in-product experience of our ServiceNow Practice to realize the strategic value of your ITSM, data analytics, and AIOps platforms.
